OIL & PETROLEUM

PETROLEUM PRODUCTS

Petroleum products include transportation fuel, fuel oils for heating and electricity generation, asphalt and road oil, the feedstocks used to make chemicals, plastics and synthetic materials.

Different products are available

KEROSENE

Kerosene is a combustible hydrocarbon liquid widely used as a fuel in industry and households. It is widely used to power jet engines of aircraft and some rocket engines and is also commonly used as a cooking and light fuel.

BITUMEN

Bitumen is a common binder used in road construction and is obtained as a residual product in petroleum refineries. It is a black or dark brown non-crystalline solid or viscous material having adhesive properties derived from petroleum crude either by natural or refinery processes.

LPG

Liquefied Petroleum Gas is used as fuel in heating appliances, cooking equipment and vehicles

JET FUEL

Jet Fuel is a type of aviation fuel designed for use in aircraft powered by gas-turbine engines. These are available at different types.

BASE OIL

Base oil is used to manufacture products including lubricating greases, motor oil and metal processing fluids. Different products require different compositions and properties in the oil.

DIESEL OIL

Diesel oil is used to mean lubricating oil for diesel engines, whose fuel ignition takes place, without spark, as a result of compression of the inlet air mixture and then injection of fuel.

FUEL OIL

Diesel oil is a liquid petroleum product that is burned in a furnace or boiler for the generation of heat or used in an engine for the generation of power

LUBRICANT PRODUCTS

A lubricant is a substance introduced to reduce friction between surfaces in mutual contact, which ultimately reduces the heat generated when the surfaces move. This is used in cooking, biomedical applications, ultrasound examination, etc.

TRANSFORMER OIL

Transformer oil is used in oil-filled transformers, some types of high voltage capacitors, fluorescent lamp ballasts, and some types of high voltage switches and circuit breakers.
